It includes interviews with young Australians and with experts. A transcript and curriculum links are available on the ABC website.

Video length: 7:34

### Expected Benefits

- Increased knowledge of how alcohol advertising is regulated in Australia
- Increased knowledge of how young people are exposed to alcohol advertising

### Evidence Base

**Expert Review\*:**

The video was developed by the Australian Broadcasting Corporation (ABC) and includes input from academic experts. It has a high production quality and uses animation to present complex information about alcohol advertising and regulation in an engaging and easy to understand way. The video includes interviews with young Australians to increase relevance to students and gives tips to help young people think critically about what they are seeing in ads and the role of the media. When discussing Australia's drinking culture, it is important to avoid normalising alcohol use. To help avoid this, teachers could reiterate the declines in youth drinking covered in the video.
