Webinar Handout Webinar Transcript

Developers

Professor Hayden McRobbie, National Drug and Alcohol Research Centre at the University of New South Wales.

Available

1 hour webinar recording and handout, available on demand.

Summary

This webinar is for school staff, parents, health professionals, and youth who are seeking information on electronic cigarettes (e-cigarettes) and vaping.

Vaping is becoming an increasing concern for schools and parents, and this webinar will provide up-to-date and relevant information on the research around vaping and trends in use among youth. Information will also be provided on how to best prevent e-cigarette and vaping use among youth.

Expected Benefits

This webinar will provide:

- Current research findings on vaping among youth.
- Information about what e-cigarettes and vaping are and the effects of their use.
- Strategies for schools and parents to prevent vaping among youth.

Evidence Base

This webinar was developed by Professor Hayden McRobbie, National Drug and Alcohol Research Centre, University of New South Wales. It was informed by a review of research evidence on this topic.

(Webinar conducted on 30/06/21)
