### Developers

---

Professor Hayden McRobbie, National Drug and Alcohol Research Centre at the University of New South Wales.

### Available

---

1 hour webinar recording and handout, available on demand.

### Summary

---

This webinar is for school staff, parents, health professionals, and youth who are seeking information on electronic cigarettes (e-cigarettes) and vaping.

Vaping is becoming an increasing concern for schools and parents, and this webinar will provide up-to-date and relevant information on the research around vaping and trends in use among youth. Information will also be provided on how to best prevent e-cigarette and vaping use among youth.

### Benefits

---

This webinar will provide:

- Current research findings on vaping among youth.
- Information about what e-cigarettes and vaping are and the effects of their use.
- Strategies for schools and parents to prevent vaping among youth.

### Evidence Base

---

This webinar was developed by Professor Hayden McRobbie, National Drug and Alcohol Research Centre, University of New South Wales. It was informed by a review of research evidence on this topic.

(Webinar conducted on 30/06/21)
